Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities and each major fund of South Central Human Resource Agency (the "Agency"), as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise the Agency's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit includes performing procedures to obtain audit evidence about amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Agency's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Agency's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting principles used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the Agency, as of June 30, 2013, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 3 through 10 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

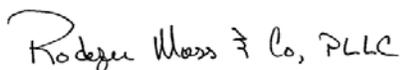

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Agency's basic financial statements. The supplementary information, as listed in the table of contents, is presented for purposes of additional analysis and is not a required part of the basic financial statements. The schedule of expenditures of federal and state awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is also not a required part of the basic financial statements.

The schedules of indirect costs and expenditures of federal and state awards are the responsibility of management and were derived from and relate directly to the underlying accounting records and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedules are fairly stated in all material respects in relation to the basic financial statements as a whole.

The schedules of insurance coverage and agency officials have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated January 29, 2014, on our consideration of the Agency's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Agency's internal control over financial reporting and compliance.

SOUTH CENTRAL HUMAN RESOURCE AGENCY
Management's Discussion and Analysis
June 30, 2013

This discussion is intended to present a broad view of South Central Human Resource Agency's financial position and activities for the fiscal year ended June 30, 2013. This information is provided to comply with GASB No. 34 *Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments*. The discussion and analysis included in this document contain information regarding social services provided by South Central Human Resource Agency.

Mission Statement

The mission of the South Central Human Resource Agency is to assist eligible people of all ages within the Agency's service area obtain a variety of services and resources.

Agency Overview

The South Central Human Resource Agency ("SCHRA" or the "Agency") was created July 11, 1973 and chartered as a public non-profit corporation February 19, 1975. The Agency's goal is to promote the development of human resources in South Central Tennessee through effective and efficient delivery of human services. From the Agency's central office at 1437 Winchester Highway in Fayetteville, Tennessee, it strives to effectively deliver human service programs and oversee the coordination efforts through its Neighborhood Service Centers located in the thirteen counties served by the Agency: Bedford, Coffee, Franklin, Giles, Hickman, Lawrence, Lewis, Lincoln, Marshall, Maury, Moore, Perry, and Wayne. The counties served by SCHRA contain over 6,500 square miles of vastly rural country and supports a population of approximately 423,000 individuals. Across this region in fiscal year 2013, SCHRA had in place 13 Neighborhood Service Centers, 24 Head Start Centers, 23 Pre-K classroom collaborations in 3 counties, 3 Early Head Start Centers, and 21 congregate meal sites served by 2 commercial kitchens. The Senior Community Employment Program also serves clients in four additional counties: Bledsoe, Grundy, Marion, and Sequatchie. During fiscal year 2013, SCHRA delivered almost 19 million dollars of services through grant/contract programs and employed approximately 400 people.

Governing Bodies

The corporate powers of SCHRA are vested in its Governing Board, which is responsible for fulfilling Agency objectives and establishing policy guidelines and direction. The Governing Board has delegated authority to the Executive Committee of the South Central Tennessee Development District (SCTDD) to act for it, and has authorized the Policy Council to administer Agency activities within the framework of established policies and in conformance with federal and state program guidelines.

The Governing Board is composed of representatives from each of the thirteen counties that the Agency serves. Membership consists of the county executive/mayor of each county, the mayor of each municipality, thirteen human resource representatives appointed by the county mayor/executive, and one state senator and one state representative whose districts lie within the Development District. Similarly, the Executive Committee of the SCTDD is comprised of thirteen county/metro executives, three minority representatives, one state senator, one state representative, and seven city mayors; and, as authorized, acts for the Governing Board.

The membership of the Policy Council is comprised of one-third elected public officials currently holding office, one-third are persons chosen in accordance with democratic selection procedures to assure that they are representatives for the poor in the area they serve, and the remainder are officials or members of business, industry, religious, welfare, educational, and other major groups with interest in the community. This is known as a tri-partite board to insure compliance with the Community Services Block Grant Act.

Additionally, serving on the Policy Council in a non-voting status is a Head Start Policy Council Representative, a Licensed Attorney, a Financial Management Representative, and an Early Childhood Representative to meet the requirements of the Head Start Act.

SOUTH CENTRAL HUMAN RESOURCE AGENCY
Management's Discussion and Analysis (Continued)

The Policy Council meets four times a year; the Executive Committee of the SCTDD acting for the SCHRA Governing Board, meets in concert with and ratifies Policy Council actions including program budgets, proposals, and contracts approved by the Policy Council. The SCHRA Governing Board meets annually.

The members of these bodies play a critical role in overseeing programs, ratifying policies and helping to plan the future of the Agency. Without a strategy based on knowledge and placed in the hands of competent and concerned individuals, the Agency would have only random ideas without a guiding purpose or direction.

Central Office Building in Fayetteville, TN

On March 20, 2002, the Agency acquired a 40,000 square foot, single story, brick commercial building situated on 5.1 acres, located at 1437 Winchester Highway. This facility includes a commercial kitchen, office and program facilities, and a storage area for commodities held for distribution. The Agency moved into this building as its base of operations in April 2005 and continues to operate from this location.

Program Highlights

The Agency operates a variety of programs to meet the needs of clients in its service areas. Program highlights for the Agency's most significant programs from fiscal year 2013 follow:

Head Start Program

The objective of the Head Start Program (which includes the Early Head Start Program), funded by the U.S. Dept. of Health and Human Services - Administration for Children and Families, is to promote school readiness by enhancing children's cognitive social and emotional development. Head Start serves pregnant women and children (birth to 5) and their families, who are under the poverty line or are eligible for public assistance. The program is composed of early childhood development and health services, family and community partnerships, and program design and management. Inclusive in these services are education, medical and dental services, mental health, nutrition, parent involvement, family services, special needs services and family literacy. Ten percent of our enrollment is mandated to serve children with disabilities. Our program ensured that age-appropriate health services were provided to 1,230 Head Start/Early Head Start enrolled and/or terminated children, 1,148 received age appropriate preventive dental services, 30 children received mental health services, and 709 newly enrolled children were screened for developmental, sensory and behavioral concerns. There were 1,881 parents and community volunteers who provided services to our program throughout all 13 of our counties.

Low Income Home Energy Assistance Program

The Low Income Home Energy Assistance Program ("LIHEAP"), funded through the State of Tennessee Dept. of Human Services ("DHS"), provides assistance to elderly, handicapped, and low-income persons with energy used to heat their homes through financial assistance to offset a portion of the cost. Priority for assistance is given to lowest of income. Priority points are used to determine the amount of assistance which ranges from \$300 to \$600. Energy and crisis assistance is provided to eligible households through direct payment to a utility or propane company. During fiscal year 2013, a total of 8,504 clients received assistance totaling \$3,432,600.

Nutrition Services for the Elderly Program

The Nutrition Services for the Elderly ("Nutrition") Program, funded by the South Central TN Development District/TN Commission on Aging and Disabilities through the Older Americans Act, strives to help the frail and elderly individuals aged 60 or over to eat adequately by providing a noon-time meal in a congregate or home delivered setting. The development of skill and/or knowledge to help the elderly select and prepare nourishing and well-balanced meals is also a primary concern. Meals are provided to those who have limited mobility which may impair their capacity to shop and cook for themselves. The program is committed to insuring the dignity of every person and underlining their importance through continued social contact and activities which minimize the need for institutionalism in nursing homes or comparable facilities. During fiscal year 2013, a total of 81,988 congregate meals and 70,756 home delivered meals were served to 991 clients. Additionally, funding through State of Tennessee Home and Community Based Program (Options), the Family Caregiver Program and the Statewide Long Term Care Choices Program (AmeriGroup, AmeriChoice and Blue Care) provides similar meals to the frail

SOUTH CENTRAL HUMAN RESOURCE AGENCY
Management's Discussion and Analysis (Continued)

and disabled aged 18 years or older. For this period Options provided 16,905 meals to 96 clients, Family Caregiver provided 1,958 meals to 10 clients, and Long Term Care Choices provided 45,546 meals to 270 clients.

Community Representative Payee Program

The Community Representative Payee Program, funded by client fees established by the Social Security Administration, offers money management services to assist persons who are incapable of budgeting, paying routine bills, and keeping track of financial matters. Those served must receive Social Security or some type of disability benefit and be certified by a physician or judge to be incapable of money management. During fiscal year 2013, 234 clients were assisted in twenty Tennessee counties and three other states. Funds distributed to/on behalf, of clients for the year totaled \$ 1,681,501.

Food Service Program

Through the operation of two commercial kitchens SCHRA provides hot nutritious meals to programs and individuals for a fee without limited qualifications. This service acts as a vendor to numerous Agency programs as well as the general public. A staff of 15 employees, utilizing 12 vans, delivers centrally prepared food to all thirteen counties in the Agency's service area. Additionally these kitchens offer professional catering services to provide income to purchase major food service equipment and to help sustain the Agency's congregate meal service for a full five day week. Without these additional dollars, the Nutrition Congregate Program would be in operation only four days per week. This would mean that 1,850 to 2,000 meals per month would be cut and a higher number of seniors would not be served in communities served by the Agency. During fiscal year 2013, these kitchens supplied 224,692 meals for the Agency's Senior Nutrition Program and 41,340 meals for its Head Start Program. Other catering engagements both internal and public produced additional revenues of \$70,025.

Weatherization Assistance Program

The Weatherization Assistance Program ("WAP") strives to improve energy efficiency and reduce energy costs of low-income households through the application of weatherization measures approved by the Tennessee Housing Development Agency ("TDHA") to qualified housing units. The Agency received funding for fiscal year 2013 for operation of the Weatherization Assistance Program from funds passed through to the Agency by TDHA. Eligibility guidelines for this funding allowed households of up to 200% of the federal poverty level to benefit. During fiscal year 2013, weatherization improvements totaling \$57,784 were made on 13 dwelling units. The funding and scope of this program have been drastically reduced due to the lack of federal funding.

Community Services Block Grant Program

The Community Services Block Grant ("CSBG") Program provides a wide range of services and activities which will have a measurable and potentially major impact on poverty in the community. The Agency received funding for fiscal year 2013 for operation of its CSBG Program from funds passed through to the Agency by the Tennessee Dept. of Human Services ("DHS"). The CSBG Program insures access to programs and services by elderly, handicapped, and low-income persons through the Neighborhood Service Centers in each of the 13 counties served by the Agency, where experienced personnel assist in meeting the needs of the low-income population. Direct services to clients, except information and referral, have an income eligibility requirement of 125% of the federal poverty guidelines. In addition to financial eligibility, need of service must be established according to the individual or household circumstances with priority given to the elderly and handicapped. During fiscal year 2013, the CSBG Program served 11,577 unduplicated households.

Senior Community Service Employment Program

The Senior Community Service Employment ("Title V") Program, funded by Senior Service America, Inc. ("SSAI"), is designed to assist economically disadvantaged people age 55 and over by providing immediate supplemental income, work experience and training at an approved training site, with an immediate goal of more permanent, unsubsidized employment. The Title V Program is also dedicated to strengthening families, communities, and the nation by providing older and disadvantaged individuals with opportunities to learn, work, and serve others. Clients must be age 55 or above, a legal resident of the county in which they apply, and be capable of performing tasks involved in the community service employment assignment as stated in the training site description, and must be economically disadvantaged, as determined by the currently established poverty guidelines - 125% scale. Title V clients who cannot immediately be placed into an unsubsidized job receive assistance on finding a job and/or are assigned to eligible non-profit and government agencies for approximately 20 hours of work per week. In these assignments, clients receive valuable work experience and skill training

SOUTH CENTRAL HUMAN RESOURCE AGENCY
Management's Discussion and Analysis (Continued)

while assisting their host agency in delivering essential community services. During fiscal year 2013, the Title V Program served a twelve (12) county area with an allocated slot level of 81 clients. The Title V Program also served four (4) additional counties (Bledsoe, Grundy, Marion, and Sequatchie) which are outside of SCHRA's service area. During fiscal year 2013 a total of 178 clients were served.

Homemaker Services for the Elderly Program

The Homemaker Services for the Elderly ("Homemaker") Program, funded by the South Central TN Development District/TN Commission on Aging and Disabilities through the Older Americans Act ("SCTDD/AAAD"), provides homemaker, respite, and/or personal care services to individuals age 60 and over or adults age 18 or older who are disabled or incapacitated who wish to remain in their own homes. A plan of care related to household operations and home management for individuals eligible for the program is developed following an in depth assessment through the SCTDD/AAAD. Without such services, they become at risk of residential or institutional care. Homemaker services involve a series of in-home contacts for the purpose of providing such services as light housekeeping, laundry, maintenance, household business, care and referral to other resources where appropriate. During fiscal year 2013, a total of 3,276 units of service were provided by the Homemaker Program. Additionally, funding through the State of Tennessee Home and Community Based Program (Options), the Family Caregiver Program and the Statewide Long Term Care Choices Program ("AmeriGroup, AmeriChoice") provides for homemaker and personal care assistance and respite sitter service to the frail elderly and adults with disabilities. During fiscal year 2013, Options provided 3,902 units of service, Family Caregiver provided 1,776 units of service, and Long Term Care Choices provided 14,889 units of service. These services were delivered to 149 clients.

Community Corrections Program

The Community Corrections Program, funded by the Tennessee Dept. of Corrections, is designed to help alleviate the overcrowding of prisons and jails by offering constructive sentencing options for non-violent offenders in the Circuit Courts of the 14th Judicial District - Coffee County, the 17th Judicial District - Bedford, Lincoln, Marshall, and Moore Counties, and the 22nd Judicial District - Giles, Lawrence, Maury, and Wayne Counties. The Program provides intensive monitoring of offenders, and includes necessary services to enhance a successful reintegration into society. During fiscal year 2013, the Program served 441 clients who paid \$16,185 in victim restitution, \$11,834 in child support, and worked 4,305 hours of community service.

Foster Grandparent Program

The Foster Grandparent Program, funded by the Corporation for National Service, provides stipend volunteer opportunities for limited income persons age 55 and older to give supportive services to children with "special needs" in the community. Foster Grandparents assist children and adolescents with learning disabilities, those who have been abused and/or neglected, and drug addicted abandoned babies. Teen parents and their children may also be assisted by these volunteers. Foster Grandparents serve an average of 20 hours a week in volunteer stations such as Head Start, public schools, day care centers, shelters for abused women and children, and after school programs. Applicants must be at least 55 years old, willing to serve an average of 20 hours per week and meet 200% of the federal poverty guidelines. For fiscal year 2013, services were provided for 245 "at risk" children by 72 Foster Grandparents.

Social Services Block Grant ("SSBG")/Protective Service Homemaker Program

The SSBG/Protective Service Homemaker Program, funded by State of Tennessee Department of Human Services, provides supportive services to adults (Adult Protective Services (APS) cases) who have been threatened with abuse, neglect, or exploitation and require assistance to prevent this from occurring. Services focus on activities which the client can no longer do for themselves and which are necessary for the person to remain at home, including emotional support and encouragement during periods of loneliness and depression. Services are directed at teaching homemaking and daily living skills to these individuals. During fiscal year 2013, a total of 8,676 hours of service were provided to 99 clients.

Overview of the Financial Statements

Basic Financial Statements

This discussion and analysis is intended to serve as an introduction to the Agency's basic financial statements, which consist of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. The basic financial statements present two different views of the Agency through the use of government-wide statements and fund financial statements. In addition to the basic financial statements, this report contains other supplementary information that will enhance the reader's understanding of the financial condition of the Agency.

The final section of the report is the federally mandated "Single Audit", which is prepared to comply with the Single Audit Act of 1996. Reports on internal control and compliance, along with the schedule of expenditures of federal and state awards, are presented to reflect federal and state participation in various Agency programs.

Government-Wide Financial Statements

The first two statements on pages 11 and 12 are government-wide financial statements that are designed to provide a broad overview of the Agency's financial position and operations, in a manner similar to a private-sector business. The statement of net position presents the Agency's assets and liabilities, with the difference between the two categories reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Agency is improving. The statement of activities presents information on how the Agency's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Therefore, revenues and expenses are reported in this statement, which may result in cash flows in future fiscal periods, such as earned but unused accrued leave. All of the Agency's activities are considered to be governmental activities.

Fund Financial Statements

The fund financial statements on pages 13 through 16 provide more detail about the Agency's most significant activities. Funds are used to maintain control over resources that are to be segregated for specific activities or purpose. Fund accounting ensures and reflects compliance with finance-related legal requirements, such as grantor provisions. All of the Agency's funds are considered to be governmental funds.

Governmental Funds

Governmental funds are used to account for basic services and are reported as governmental activities in the government-wide financial statements. Governmental funds use an accounting method called modified accrual accounting. This method provides a short-term spending focus. The relationship between government activities (reported in the statement of net position and the statement of activities) and governmental funds is described in reconciliations that are part of the fund financial statements.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements are on pages 17 through 23 of this report.

Supplementary Information

The supplementary information on pages 24 through 30 of this report is presented for purposes of additional analysis and is not a required part of the basic financial statements.

Government-Wide Financial Analysis

Net Position

Table 1 below is a summary of the Agency's net position at June 30, 2013 with comparative data from June 30, 2012.

Table 1
Condensed Statement of Net Position

	<u>2013</u>	<u>2012</u>

Unrestricted	<u>791,743</u>	<u>907,433</u>
Total net position	<u>\$ 3,279,307</u>	<u>\$ 3,201,572</u>

The Agency's assets exceeded liabilities by \$3.279 million as of June 30, 2013. The Agency's net position increased \$77,735 for the fiscal year.

The largest portion (62%) of net position reflects the Agency's investment in capital assets (buildings and improvements, vehicles, equipment, and land) less related debt. The Agency uses these capital assets to provide services to clients; consequently, these assets are not available for future spending. Although the Agency's investment in capital assets is reported net of the outstanding related debt, the resources needed to repay the debt must be provided by other sources, since the capital assets cannot be used to liquidate these liabilities. Restricted net position represents the amount invested in a certificate of deposit that secures an irrevocable letter of credit which in turn, secures this debt.

Net position at end of year	<u>\$ 3,279,307</u>		<u>\$ 3,201,572</u>	

Governmental activities showed an increase in net position of \$77,735 for the fiscal year compared to an increase in net position of \$326,104 for the prior year. This decrease is primarily due to a reduction in funding from certain grantor agencies for the fiscal year. Operating grants and contributions provided approximately 77% of the funds for governmental activities for the fiscal year compared to 78% in the prior year. These funds were expended in both years primarily for child education, energy assistance, and nutrition and other services for the elderly.

SOUTH CENTRAL HUMAN RESOURCE AGENCY
Management's Discussion and Analysis (Continued)

Financial Analysis of the Agency's Funds

As noted earlier, the Agency uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds

The focus of the Agency's governmental funds is on near-term inflows, outflows, and balances of usable resources. Such information is useful in assessing the Agency's financing requirements.

As of June 30, 2013, the Agency's governmental funds reported a combined balance of approximately \$1.251 million, a decrease of \$115,690 over last year. This change is largely a result of reductions in funding and unexpected increases incurred for benefits to employees.

The general fund is the Agency's primary operating fund. Revenues exceeded expenditures in this fund by \$25,590 for the fiscal year. At the end of the current fiscal year, unassigned fund balance of the general fund was \$726,519, with a total fund balance of \$1,250,743.

The special revenue fund is used to account and report the proceeds of specific revenue sources that are restricted or committed to expenditure for a specific purpose other than debt service or capital projects. Expenditures exceeded revenues in this fund by \$141,280 for the fiscal year. This short-fall was funded by a transfer from the general fund of the same amount.

Capital Assets

As of June 30, 2013, the Agency's capital assets totaled \$2,066,064 compared to \$1,917,639 in the prior fiscal year; a net increase is of \$148,425. These assets include buildings and improvements, vehicles, equipment, and land. Additions to capital assets totaled \$282,010 and net disposals totaled \$12,675 for the fiscal year. The Agency also recognized depreciation expense of \$120,910. Additional information on the Agency's capital assets can be found in Note 5 of the financial statements.

Long-Term Debt

The Agency has a non-interest bearing note payable to the Fayetteville Board of Public Utilities. The note is payable in monthly installments of \$3,750 and is secured by a \$450,000 irrevocable letter of credit. The outstanding balance on the note as of June 30, 2013 was \$37,500. Debt repayments totaled \$45,000 in the fiscal year and were made by the general fund. Additional information about this note can be found in Note 4 to the financial statements.

Factors Bearing on SCHRA's Future

The Agency is dependent on federal and state funding in order to carry out its various programs. The Agency expects to receive less funding for 2014 due to the federal sequestration and other current uncertainties with the federal budget. The Head Start Program contract has been renewed on a five year basis, however funding was reduced by approximately \$400,000 due to sequestration.

Requests for Information

This report is designed to provide an overview of the Agency's finances for those with an interest in this area. Questions concerning any of the information found in this report or requests for additional information should be directed to the Fiscal Agent, South Central Human Resource Agency, P.O. NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of Operations - South Central Human Resource Agency (the Agency) was formed on July 11, 1973 in accordance with the *Human Resource Agency Act of 1973*. This legislation established four metropolitan and up to nine rural human resource agencies to deliver human resource programs across the State of Tennessee. The Agency was chartered as a public non-profit corporation on February 19, 1975. The Agency delivers a variety of programs to economically disadvantaged, elderly, and disabled individuals in 13 counties of south central Tennessee: Bedford, Coffee, Franklin, Giles, Hickman, Lawrence, Lewis, Lincoln, Marshall, Maury, Moore, Perry, and Wayne. The Agency is governed by a 64-member Governing Board. The Governing Board consists of the county mayor of each county, the mayor of each municipality, thirteen community representatives, and one state senator and one state representative whose district lies within the area served by the Agency.

Reporting Requirements - As a human resource agency, the Agency is required to prepare its financial statements in conformity with generally accepted accounting principles (GAAP) as applied to government entities. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

Basic Financial Statements - The Agency's basic financial statements include both government-wide (reporting the Agency as a whole) and fund financial statements (reporting the Agency's major funds). The Agency only has governmental funds.

Government-Wide Statements - The government-wide financial statements include the statement of net position and the statement of activities. In the statement of net position, the governmental funds are presented on a consolidated basis, and are reported on a full accrual, economic resource basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations. For the most part, the effect of interfund activity has been removed from these statements. The Agency's net position is reported in three parts: investment in capital assets, net of related debt, restricted net position and unrestricted net position. The statement of activities presents a comparison between expenses and program revenues for each major function/program of the Agency. Direct expenses are those that are specifically associated with and are clearly identifiable to a particular function/program. Program revenue includes (a) charges for services offered by the programs and other program income and (b) operating grants and contributions that are restricted to meeting the operational or capital requirements of a particular program.

Fund Financial Statements - The fund statements provide information about Agency's funds. The Agency has two major governmental funds. It has no nonmajor governmental funds.

General Fund - This is the Agency's primary operating fund. It accounts for all financial activity that is not required to be accounted for in the special revenue fund. All general receipts that are not allocated by law or contractual agreement to a special revenue fund are accounted for in this fund. The general fund also pays general operating expenditures and capital improvement costs that are not paid through a special revenue fund.

Special Revenue Fund - This fund is used to account and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specific purposes other than debt service or capital projects. Excess expenditures of this fund are financed with a transfer from the general fund. The transfer from the general fund for the fiscal year totaled \$141,280. The interfund balance of \$126,384 due to the general fund as of June 30, 2013 will be repaid as cash flows permit.

The Agency's fund balance is reported in three parts: nonspendable, restricted, and unassigned. The Agency's nonspendable fund balance consists of the amount spent on prepaid expenses. The Agency's restricted fund balance consists of the amount held in a certificate of deposit which has been restricted for repayment of long-term debt. The Agency does not have, nor does it expect to have, any committed or assigned fund balance. The Agency also does not generally have, nor does it expect to have, expenditures for which both restricted and unrestricted fund balances available.

SOUTH CENTRAL HUMAN RESOURCE AGENCY
Notes to Financial Statements (Continued)

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Grants and similar items are non-exchange transactions and are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. Amounts reported as program revenues include (a) charges for services offered by the programs and other program income and (b) operating grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Interfund services provided and used are not eliminated in the process of consolidation.

The governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized in the accounting period when they become susceptible to accrual (i.e. when they are “measurable” and “available”). “Measurable” means the amount of the transaction can be determined and “available” means collectible within the current period or soon enough thereafter to pay the liabilities of the current period. Expenditures are recorded when the related fund liability is incurred, if measurable, except for unmatured principal and interest on long-term debt, which is recognized when due, and certain compensated absences and claims and judgments, which are recognized when the obligations are expected to be liquidated with expendable available financial resources. General capital asset acquisitions are reported as expenditures in governmental funds.

The Agency considers all revenues available if they are collected within 60 days after year-end. Grant funds received by the Agency before it has a legal claim to them, such as advances or prior to the incurrence of qualifying expenditures, are reported as liabilities. The liability is removed and revenue is recognized in subsequent periods once the revenue recognition criteria are met and the Agency has a legal claim to the resources.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Capital Assets - Capital assets, which include building and improvements, vehicles, equipment, and land are reported under governmental activities in the government-wide financial statements. Capital assets are defined as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at cost if purchased or constructed. The cost of capital assets is depreciated using the straight-line method over the estimated useful lives (5 - 40 years). The costs of normal maintenance and repairs that do not add value to the asset or materially extend assets lives are not capitalized.

Federal, State, and Local Agency Grant Funds - Funds to operate many of the Agency’s programs are made available through federal, state, and local agency grants. Revenues are recognized at the time allowable costs are incurred. The Agency’s policy is to expend federal, state, and local agency grant funds which are restricted as to purpose before using unrestricted funds to pay for program expenses. In addition, since the Agency receives grant funds on both an advance and cost-reimbursement basis, either a receivable or a liability may exist at the end of the Agency’s fiscal year.

Annual Leave - Annual leave is expensed during the period in which it is earned. Eligible full time employees who have been employed by the Agency for up to five years accrue 1 day of vacation per month. Eligible full time employees with more than five years of service with the Agency accrue 1 1/2 days of vacation per month. These employees may carry over up to 225 hours (30 days) of accrued vacation leave from the preceding fiscal year. Any vacation leave accrued in excess of 225 hours may be transferred to sick leave to the extent that sick leave is not maximized. The liability for accrued leave recognized in the financial statements represents accrued vacation leave for all eligible employees as of June 30, 2013.

SOUTH CENTRAL HUMAN RESOURCE AGENCY
Notes to Financial Statements (Continued)

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Sick leave is expensed when paid. The Agency's sick leave policy permits the accumulation of 12 sick days per year up to a maximum of 180 days. Employees are not paid for unused sick days upon termination of employment. Accordingly, no liability for unused sick leave has been recognized in the financial statements as of June 30, 2013.

Income Taxes - As a governmental entity, the Agency is exempt from federal and state income taxes. The Agency is also a not-for-profit organization that is exempt from income taxes under Section 501(c)(3) of the Internal Revenue Code. The Agency was notified by the IRS in 2012 that it must begin filing Form 990, *Return of Organization Exempt from Income Tax*, on an annual basis effective for the year ended June 30, 2011. Forms 990s for the years ending June 30, 2011, 2012 and 2013 are subject to examination by the IRS, generally for three years after they were filed.

Net Position and Fund Balances

Net position in governmental-wide financial statements are classified as net investment in capital assets; restricted; and unrestricted. Restricted net position represents constraints on resources that are either imposed externally by grantors and others or by law. At year-end, restricted net position consisted of the amount held in a certificate of deposit which has been restricted for repayment of long-term debt.

In the governmental fund financial statements, fund balance is composed of five classifications designed to disclose the hierarchy of constraints placed on how fund balance can be spent. The governmental fund types classify fund balances as follows:

Nonspendable fund balance includes amounts that cannot be spent because they are either not in spendable form (i.e. prepaid expenses) or are legally or contractually required to be maintained intact.

Restricted fund balance is the portion of fund balance that can only be used for specific purposes imposed externally by grantors and others or by law.

Committed fund balance is the portion of fund balance that can only be used for specific purposes imposed by majority vote by quorum of the Agency's governing board (highest level of decision-making authority). Any changes or removal of specific purpose requires majority action by the governing board. The Agency has no committed fund balance as of June 30, 2013.

Assigned fund balance is the portion of fund balance that the Agency intends to use for specific purposes as determined by the Agency's governing board. The Agency has no assigned fund balance as of June 30, 2013.

Unassigned fund balance is the portion of fund balance that has not been restricted, committed, or assigned to specific purposes.

Budgetary Accounting - The Agency receives funds under various grants and contracts which end on various budget cycles. Accordingly, there is not an annual appropriated budget for the Agency and no budgetary comparison has been included in the financial statements.

Indirect Cost Allocation - The Agency accumulates administrative costs in an indirect cost pool and allocates these costs to programs based on each program's total direct expenditures. Administrative costs are those costs incurred for the common benefit of all agency programs that cannot be readily identified with a final cost objective. This plan has been approved by the United States Department of Health and Human Services.

Concentrations of Credit Risk - Financial instruments, which potentially subject the Agency to concentrations of credit risk, consist primarily of cash and receivables. Cash deposits are held in federally insured banks. The Agency's receivables are primarily due from federal, state and local agencies. Accordingly, management does not believe significant credit risk exists at June 30, 2013.

SOUTH CENTRAL HUMAN RESOURCE AGENCY
Notes to Financial Statements (Continued)

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

New Accounting Pronouncements - GASB Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position* became effective for periods beginning after December 15, 2011. The primary effect of adopting this statement was to replace the term “net assets” with the term “net position” in the Agency’s financial statements as the Agency has no deferred outflows or inflows of resources. Agency management has also considered GASB Statement No. 61, *The Financial Reporting Entity: Omnibus, an amendment of GASB Statements No. 14 and No. 34*, GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities*, and GASB Statement No. 66, *Technical Corrections - 2012 - an amendment of GASB Statements No. 10 and No. 62*. Agency management has determined that adoption of these statements did not have any impact on the Agency’s financial statements.

Date of Management’s Reviews - The Agency has evaluated events and transactions through January 29, 2014, the date these financial statements were available to be issued, for items that should potentially be recognized or disclosed.

NOTE 2 - RECEIVABLES

Receivables from grantor agencies and others as of June 30, 2013 consisted of the following:

Federal	\$ 230,427
State	349,024
Other	<u>280,702</u>
	<u>\$ 860,153</u>

NOTE 3 - DEPOSITS AND CERTIFICATE OF DEPOSIT

Custodial credit risk is the risk that in the event of a bank failure, the Agency’s deposits (including the certificate of deposit) may not be returned to it. The Agency minimizes this risk by requiring full collateralization on all demand deposit accounts in excess of federally insured limits except when the institution belongs to the State of Tennessee Bank Collateral Pool (the “Pool”). Banks participating in the Pool determine the aggregate balance of their public fund accounts for the Agency. The amount of collateral required to secure these public deposits must be equal to 105% of the average daily balance of public deposits held. Collateral securities required to be pledged by the participating banks to protect their public fund accounts are pledged to the State Treasurer on behalf of the Pool. The securities pledged to protect these accounts are pledged in the aggregate rather than against each individual account. The members of the Pool may also be required by agreement to pay an assessment to cover any deficiency. Consequently, public fund accounts covered by the Pool are considered to be fully insured for purposes of credit risk disclosure. Deposits in excess of deposit insurance at the Bank of Lincoln County were uncollateralized until November 1, 2012 when the Agency entered into a collateral agreement with the Bank of Lincoln County.

At June 30, 2013, the carrying amount of the Agency’s deposits, including the certificate of deposit, was \$1,562,209, and the bank balances were \$1,735,708 which was fully insured or collateralized.

NOTE 4 - LONG-TERM LIABILITIES

Long-term liabilities as of June 30, 2013 consisted of:

Note payable, non-interest bearing to Fayetteville Board of Public Utilities, due in monthly installments of \$3,750, secured by \$450,000 irrevocable letter of credit	\$ 37,500
Less installments due within one year	<u>(37,500)</u>
	<u>\$ -</u>

NOTE 6 - OPERATING LEASES AGREEMENTS

The Agency leases real estate, vehicles, and equipment for operation of its programs. Rent paid for real estate for the year ended June 30, 2013 totaled \$397,732 including allocated building costs totaling \$163,344. All of the Agency's leases are cancelable with thirty days notice in the event that the Agency loses federal or state funding for any program which utilizes leased property.

NOTE 7 - RETIREMENT PLANS

The Agency sponsors a Tax Deferred Annuity Plan (the "Annuity Plan") for employees of the Agency. Employees are eligible to participate in the Plan on the first day of employment. Employees may make pre-tax contributions to the Plan subject to limits set by the Internal Revenue Code. Contributions to the Annuity Plan are fully vested. Employee contributions for the year ended June 30, 2013 to the Annuity Plan totaled \$210,461.

The Agency also sponsors the South Central Human Resource Agency Pension Plan (the "Pension Plan"), a defined contribution money purchase pension plan. Employees are eligible to participate in the Pension Plan after six months of employment. The Agency contributes 5% of the employee's base salary each month, if the employee contributes 2% of his/her base salary to the Annuity Plan. Effective June 1, 2012, the Agency's contribution was increased to 8% for eligible employees with fifteen or more years of service. The Agency's contributions for each eligible employee (and earnings allocated thereon) are fully vested after one year of continuous service. Agency contributions for, and earnings forfeited by, employees who leave employment before one year of service are used to reduce the Agency's current period contribution requirement. Employer contributions for the year ended June 30, 2013 to the Pension Plan totaled \$249,754.

NOTE 8 - RISK MANAGEMENT

The Agency is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees and volunteers; and natural disasters. The Agency protects itself from potential loss through participation in the Tennessee Municipal League Risk Management Pool (the "Pool") for commercial general and personal injury liability; property and crime liability, public officers' liability; automobile liability, and workers' compensation. The Agency's agreement with the Pool provides for payment of annual premiums for coverage. The agreement also provides for refunds or additional assessments to members based on the experience of the Pool. Additional member assessments have not been imposed in any of the past three fiscal years. Additionally, the Agency carries excess liability insurance through the State of Tennessee's Self Insurers Risk Retention Group, Inc.; specialized insurance coverages through various commercial insurance policies for some of its programs, and additional employee dishonesty coverage specific to its pension plan. There have been no significant reductions in insurance coverage from coverage in the prior year by major categories of risk. In addition, the amount of settled claims did not exceed insurance coverage in any of the past three fiscal years.

The Agency also participates in the State of Tennessee's Employee Group Insurance Fund (the "Fund"). This is an internal service fund of the State that provides a program of health insurance coverage for the employees of the Agency with the risk retained by the State. The Fund allocates the cost of providing claims servicing and claims payment by charging a premium to the Agency. The cost allocation is based on estimates of the ultimate cost of claims that have been reported but not settled and of claims that have been incurred but not reported. Employees and providers have 13 months to file medical claims. The Agency's obligation under the plan is limited to 80 percent of the total premium for its employees.

NOTE 9 - CONCENTRATIONS

Approximately 76% of the Agency's revenues for 2013 came from direct and pass-through federal grants. Approximately 60% of the Agency's program revenues for 2013 were from two programs. The Agency is economically dependent on federal and state funding in order to carry out its various programs.

SOUTH CENTRAL HUMAN RESOURCE AGENCY
Notes to Financial Statements (Continued)

NOTE 10 - IN-KIND CONTRIBUTIONS

The Agency is required to obtain local support in the form of in-kind contributions to match federal and state funding on various grants. These contributions are in the form of rent-free use of space; volunteer labor, supervision and services; and other non-cash contributions provided by individuals, private organizations, and local governments. The amount of in-kind revenue is also recognized as expense so the effect on the Agency's operations is zero. In-kind revenues and expenses are not included in the basic financial statements and totaled \$2,633,910 for the year ended June 30, 2013.

Independent Auditors' Report on Internal Control Over Financial Reporting and on

Performed in Accordance with *Government Auditing Standards*

Governing Board
South Central Human Resource Agency
Fayetteville, Tennessee

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities and each major fund of South Central Human Resource Agency (the "Agency"), as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise the Agency's basic financial statements, and have issued our report thereon dated January 29, 2014.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Agency's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Agency's internal control. Accordingly, we do not express an opinion on the effectiveness of the Agency's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the Agency's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit the attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Agency's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Agency's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Agency's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Independent Auditors' Report on Compliance for Each Major Program and on
Internal Control Over Compliance Required by OMB Circular A-133

Governing Board
South Central Human Resource Agency
Fayetteville, Tennessee

Report on Compliance for Each Major Federal Program

We have audited South Central Human Resource Agency's (the "Agency") compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of the Agency's major federal programs for the year ended June 30, 2013. The Agency's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its federal programs.

Auditors' Responsibility

Our responsibility is to express an opinion on the Agency's compliance for each of the Agency's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Agency's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the Agency's compliance.

Opinion on Each Major Federal Program

In our opinion, the Agency complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2013.

Report on Internal Control Over Compliance

Management of the Agency is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Agency's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing our opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Agency's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.
